Credit

MISS CONNIE FENWICK SECOND

The Mammoth Cave contest is going some and much more interest is being displayed this year than ever. There are 37 candidates in the field and fifteen of them are showing results. It is a settled fact that some one of these young ladies will get the handsome \$100.00 diamond ring and five of them will win the trip to the Cave on June 20th.

This will be one of the most delightful trips imaginable and we are going to make it the banner trip of our experience. There will be over 75 in this trip and every one will have a delightful time. The Bee's party will leave Earlington in a special coach on Monday, June 23rd, and after a trolley ride over Evansville and suburbs, they will take the Steamer "Bowling Green" for a week's outing at the Mammoth Cave and Colossal Cavern.

Will spend two days at the cave and return Saturday reaching Evansville in time to catch train 92 for home. In order that there may be no confusion it would be well for all who wish to make this trip with the five winners to send in their names as early as possible.

IF CONSTIPATED OR BILIOUS-- "CASCARETS."

Headache, Sour Stomach, Biliousness and
Bad Taste Gone by Morning.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery--indigestion, foul gases, bad breath, yellow skin, mental fears and everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep--a 10 cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowel regulated, and never know a miserable moment. Don't forget the children--their little rides need a good cleansing too.

SETS A BALLOON RECORD

Rene Ramplmayer Sails 1,492 Miles and
Fixes New World Mark.

Paris, March 25.--A new world's record for distance in a spherical balloon has been made by Rene Ramplmayer, who has just completed a successful flight from Paris to a point near Kharkov, European Russia. The distance traveled was 2,400 kilometers (approximately 1,492 miles). Ramplmayer accompanied Maurice Bienaim, pilot of the balloon Picardie, which won the James Gordon Bennett trophy in the international balloon race in 1912. The Picardie on that occasion established a world's record of approximately 1,361 miles.

The Biggest Ever

Tuesday's issue of The Louisville Courier-Journal consisted of 192 pages of eight columns each, which would have been 219 pages of seven columns each. The largest paper ever gotten out in the state or the South. It deals with the prosperity and growth of the South and Ky. It is full of reading, dealing with all classes of industries, mining and in fact is an effort that should be appreciated by the entire South as well as at home. It weighed four pounds and cost 10 cents to mail each copy. The expense to get out this enormous paper was certainly very great. But the enterprising owners of these two papers, the Times and Courier have spared none in their effort to help their home State and Southland. To those who have friends in other states, they should see that they have a copy of this paper.

LAUNDRY FOR DIRTY MONEY

Washing Machines Which Will
Make Old Bills Look
Like New

WILL DETECT COUNTERFEITS

Chicago, Ill., March, 26.--Within a month the treasury department in Chicago will be "laundering" money at the rate of about 12,000 bills an hour. Two of the new money-washing machines have been unpacked and set in place in the treasury by Edward Smith, a Washington expert.

Each machine will have a capacity of washing 6,000 bills an hour. The money goes in at one end of the machine dirty and wrinkled and comes out at the other practically as crisp and bright as a new bill.

Will Save Half Million

When the twelve machines authorized by the government are installed in various treasuries about the country it is estimated they will save the government half a million dollars a year in printing and engraving bills.

In addition to the two machines installed here, there are four being installed in New York and one each in the treasuries in Baltimore, Boston, Cincinnati, New Orleans, Philadelphia and St. Louis, Mo. One has been in operation in Washington for nearly a year.

Will Detect Counterfeits

The machine is a detector of counterfeit money, as the government experts are the only ones able to make papers and inks that will withstand the washing and scrubbing that the bills receive in the cleaning process.

The machines will be operated by women, as test has proven that they are more dexterous with their fingers in manipulating the washers. Two women are required for each machine, and it is probably that the four persons required will be brought directly from Washington, where they have had opportunity to become expert in the operation of the "laundries."

Richmond, of the State Board of Health, has been here this week, and has been practically assured of an appropriation from the Fiscal Court for this purpose. Dr. Richmond is of the opinion that a large number of cases of hookworm disease exist in this county.

THE ANITA SING- ING ORCHESTRA

Mrs. Ralph Dunbar--Formerly
With the Dunbar Quartet
and Bell Ringers

AT TEMPLE THEATRE, MARCH 29

The Anita Singing Orchestra comprises six attractive young ladies--talented, refined and cultured. They are equally entertaining as singers, players or pantomimists. Their programs may be truly styled "programs for the people."

A GREAT VARIETY IN MUSIC

The Anitas present a great variety in music including songs with action, and appear in special costumes. There is a graceful blend of the classic with the popular and the sublime with the ridiculous. They satisfy and delight the devotees of Brahms or Liszt as well as the throng whose pulses quicken to the rhythm of a Sousa March, an old time tune or a bit of rag-time. The Anitas have often been pronounced an "All Star" company.

Thomas (Thomp) Sisk For Jailor

He is a farmer in the Mortons Gap country. This is the first time that he has ever asked for an office from the party.

John W. Vogel's Big Minstrels

One of the many features to be presented by the John W. Vogel's Big City Minstrels, which will appear at the Temple Theatre on Monday night, March 31st is a beautiful and up-to-date dancing number, entitled, "The Great Event." The idea was conceived by Manager Vogel and arranged by Barney Fagin, the world's master producer of lucrative dances and terpsichorean movements. The scene is laid at the famous Sheephead Bay race course, and the prancing thoroughbreds are at the post awaiting the signal for the start, they get the word, "They're off," hoof-beats are heard in the distance and immediately after the finish the jockeys appear neatly attired in the regulation colors, representing the world's famous owners and stake winners. William Rowe, the famous and world-renowned solo clog dancer, has been engaged to reappear and produce the act in the absence of Mr. Fagin, whose foreign engagements prevent his doing so.

Mrs. C. J. Hutchinson, spent Wednesday afternoon with friends in the county seat.

DANDRUFF CAUSES FALLING HAIR--25 CENT DANDERINE.

Save Your Hair! Beautify It! Invigorate Your Scalp! Danderine Grows Hair and we Can Prove It.

Try as you will, after an application of Danderine, you cannot find a trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first--yes--but really new hair--growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand of hair at a time. The effect is immediate and amazing--your hair will be light fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight--now--that your hair is as pretty and soft as any--that it has been neglected or injured by careless treatment that's all.

TEACHERS TO FIGHT IN COURT OF APPEALS

Uncertain Kentucky Law Point To Be
Put To Test

Hopkinsville, Ky., March 21.--A test case of a point in the present school law in this state may be made before the court of appeals in a case from this county. The point at issue is whether the decision of the county superintendent is final in revoking a teacher's certificate or has the teacher a right to appeal to the state superintendent and can he reverse the county superintendent's order.

The case here is one in which Miss Jennie West, county superintendent recently revoked the certificate of H. Belle LaPrade, a colored teacher. State Superintendent Hamlett reversed Miss West's order.

Attorney General Garnett has given an opinion in which he holds that the decision of the county superintendent is final.--Evansville Courier.

Record Output Of Kentucky Coal

Lexington, Ky., March 25.--Prof. C. J. Norwood, state inspector of mines, announced that his compilation of statistics as completed thus far indicates that the output of Kentucky coal mines for 1912 will be about 16,000,000 tons, and that he is confident the output will not be less than this amount. The highest output heretofore for Kentucky mines was 14,600,000 tons in 1920. Prof. Norwood, who is at the head of the college of mines of state university, as well as state inspector, has been at work upon the compilation of coal statistics for 1912 and expects to have them officially completed within a short time.

The output for 1911 was 13,924,811 tons and for 1910 was 14,729,011 tons. It had been generally believed among coal men that the output for 1912 would not be lower than that of 1911, but Prof. Norwood finds as he progresses in tabulating the statistics that the output for 1912 will unquestionably be the greatest in the history of the state.

Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French dermatologist, have discovered that the cause of falling hair is a microbe which lives in the scalp and hair follicles, and that it is the only cause of baldness. They have discovered that the microbe which causes baldness is the same as the microbe which causes the skin disease known as "ringworm." They have discovered that the microbe which causes baldness is the same as the microbe which causes the skin disease known as "ringworm."

We know of nothing that has given such universal satisfaction in treating the scalp and hair as REXALL'S "03" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair; and if any human agency can promote a new growth of hair it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of REXALL'S "03" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your money request will get your money back if you want it. Two sizes: 50c and \$1.00.

Finning, and the Louisiana Glee Club, under the direction of Mr. Arthur Fulton, who has the reputation of being the foremost vocal director in the Minstrel business, will supply the vocal numbers. John W. Vogel's Big City Minstrels will appear at the Temple Theatre on Monday Mar. 31st, and should be witnessed by a crowded house.

Bishop Not Qualified.

Comments by the bishop of London (Dr. Ingram) on the falling birth-rate were quoted by counsel in a case in the Clerkenwell county court, when Judge Clear remarked: "What has the bishop to do with it? He is not married. Example is better than precept."

Cakes for Man in the Moon.

For centuries Chinese women have been baking cakes for the man in the moon, who was supposed to leave his high seat on the annual festival and wander over the earth nibbling at the moon-faced pastries made in his honor.

NOTED SPEAKERS WILL BE HEARD

When Kentucky Educational Association Meets.

GATHERING AT LOUISVILLE.

Program Committee of K. E. A. Extremely Fortunate in Securing Services of Many Distinguished Educators and Speakers of National Reputation. Partial List Given Here.

If never there, you ought to go. If ever there, you'll want to go.

The program committee of the Kentucky Educational Association has been extremely fortunate in securing the services of practically all the prominent speakers that were originally selected for the gathering in Louisville on April 30 and May 1, 2 and 3. The music will be quite varied, as it is planned to have high school choruses, class choruses and organ recitals.

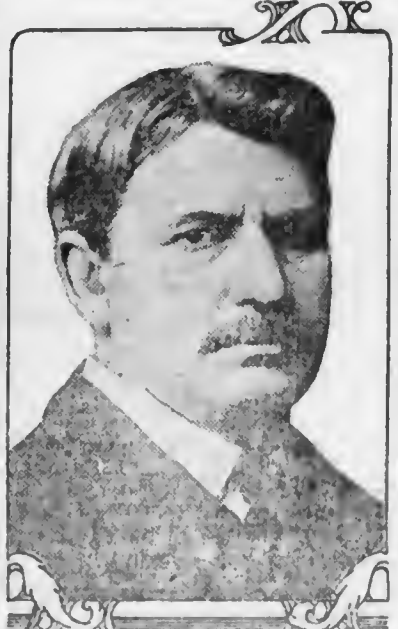

Before becoming president of the Armour Institute of Technology of Chicago Dr. Gimsaugh occupied some of the largest pulpits in that city. Whether Dr. Gimsaugh talked in his church or in one of Chicago's great theaters, he always had a large audience to listen to him say big things in a splendid, big way.

Dr. Gimsaugh's lecture dates have carried him all over the country in the winter, and during the summer he is always in demand as a popular Chautauqua talker. One of the finest things about Dr. Gimsaugh is that, although he is popular, he has never failed to say strong, vigorous things.

Colonel Henry Exall.

It will be an inspiration to the trustees who attend the Kentucky Educational Association to listen to Colonel Exall of Texas. Last January the Commercial club of Louisville had Colonel Exall as the speaker at the annual New Year gathering and he simply electrified the men present.

Something over two years ago Colonel Exall decided that it was time for Texas to take care of her soil. Now

DR. FRANK W. GIMSAGH.

when Colonel Exall decides things ought to be done the things usually have a way of getting done. He at once inaugurated the Texas Industrial congress, which offered \$10,000 in gold as prizes for crops in all parts of Texas. It was soon evident that the \$10,000 in gold was the least expensive part of the undertaking for the various contestants must be kept in touch with each other and the congress. The undertaking cost \$30,000 for the first year. Colonel Exall raised the funds.

This year 4,000 men, women, boys and girls contested for the prizes and the whole state is awake to the fact that results are being produced. In fact this feeling has become so strong that a group of business men are preparing to finance the Texas Industrial congress for a period of three years.

Dr. Charles Evans.

Dr. Charles Evans is president of the State Normal school at Edmond, Okla. He is a transplanted Kentuckian, and like any number of transplanted Kentuckians he has made good in the state of his adoption. He grew up with the country, and grew up big. In fact he has grown so big that he is now being spoken of as the next state superintendent of Oklahoma.

His new book, "Growing a Life," published by Rand, McNally & Co., is receiving favorable comment from prominent educators in all parts of the country. It will probably be adopted as one of the Kentucky reading circle books for the ensuing year.

Dr. Alston Ellis.

Another ex-Kentuckian on the program of the Kentucky Educational Association is Dr. Alston Ellis, president of the Ohio university at Athens. For twelve years he has been making history at the University of Ohio, so he is sure to have something worth while to say to the teaching force of his home state.

It is said that his love for Kentucky has never been dimmed by his service out of the state. In fact it is rumored that he will build a handsome home at Fort Thomas, Ky., where he will reside after leaving the university in 1915.

STORIES AT THE OPERA

By G. C. Phillips.

Miss Pearl Pattershall yawned languidly over her noon sandwich. "Have you been to the op'ra?" she inquired of the stenographer from across the hall.

"Oh, yes," assented that young person, in accents of withering scorn. "I've been to the op'ra, and I wore my \$500 Paris gown and my Russian sables and the diamond talaria I had such a time getting through the customs house, and I went in my new \$10,000 limousine, too!"

"Wake up!" commanded Miss Pattershall. "They'll let you in for less than that! I went the other night myself, and really there's just as much fresh air up in the clouds as down in the parquet. The view was grand. I could look down into most of the boxes and see what our very best people were wearing. In some cases it did not take long."

"There was one woman with a white feather duster eighteen inches long, stuck in her hair, who fascinated me. Did she have a hole cut in the roof of her automobile, or did she sit on its floor while she was coming, or did she stick her head out of the window all the way, as though she was going to yell for the police?"

"I noticed that most of the women had feather dusters of some sort or other, more or less, fastened to their coiffures," Miss Pattershall went on, "and that must have been why the men were eternally leaving the boxes. I suppose they stood it as long as they could and then they had to retire to the lobby to sneeze. I should think each of them would slip a pair of scissors into his vest pocket and snip off those feathers when they became troublesome. No matter where the men sat or how they stretched their necks, those alerettes always struck them right across the nose."

"One young man kept stretching his neck to get above the bird of paradise that was tickling his countenance, until I became alarmed for fear his neck would give way under the strain. But even from a distance I could tell that he would endure far worse for the sake of showing the crowd that he was in Mrs. Bang-Swinger's box."

"The young ones are dreadfully funny! It oozes out all over them that they are tickled to pieces to demonstrate their social progress. They seem to be thinking: 'Two years ago in the balcony, last year in the parquet and now here I am in a box—hooray!' Bless their little hearts!"

"I saw my boss' son and heir, William Fare-you-well Pyle, in one of the boxes. He was trailing a slim young person who looked like a pink snake from where I sat. Unless William has sworn off since he drifted away from the mahogany desk father put in here at the office for him, a pink snake in his line of vision makes him feel right at home. Yet he seemed real scattered at having him act as though he had never laid eyes on a pretty girl before."

"I got kind of mixed on the op'ra itself. You see, I had read the libretto carefully, so I'd know what to expect, and it certainly sounded exciting. There was the duel between the rivals, for instance, with Lady Leonora falling senseless at the furious clash of steel by the two who hated each other desperately. At least, that's what the libretto led me to expect. What happened was that after the basso had politely waited for the tenor to finish his warbling about how he was going to slash him to mince meat the two crossed their swords in the air as though preparing for the chorus to walk under in a procession, and Leonora brushed a fly off her ear and gazed into the wings while the curtain fell."

"Then," proceeded Miss Pattershall, "when the rivals are trying to abduct Leonora from the convent the libretto told how distracted she was and how she finally yields to the troubadour who carries her off triumphantly. Well, I wish you could have seen her toddle meekly off after him, as though she was going to buy a spool of thread, and merely wondered who could be the good looking gentleman in front of her."

"But say! When they come in and tell the troubadour that his mother is being burned alive at the stake, I wish you could have seen the way that man threw his arms gracefully to heaven and struck attitudes and tried his voice in different keys and warbled arias to Leonora. It was, to my mind, a mighty poor imitation of man rushing to the rescue of his poor old parent."

"I'll bet he found only about a thimbleful of ashes when he got there! And—"

"But," interrupted the stenographer from across the hall, "how about the music? Wasn't there any music at the op'ra?"

"Oh, yes," said Miss Pattershall, haughtily. "I forgot that. The music was perfectly grand, believe me!"—Chicago Daily News.

Worth Considering.

"I wish," she said, "that I could form a society of some kind."

"Why?" he asked.

"I'm tired being a nobody. When one forms a society one gets written about and talked about and gains public attention."

"Why don't you form a Society for the Prevention of Cruelty to Husbands at Christmas Time? If you desire to be a benefactress I don't know of any better way in which you could benefit."

FARMERS' LOSS IN SOUTH IS GREAT

Lack of Co-operation Declared to Be the Cause.

EXPERT GIVES FIGURES.

Professor Coulter of Census Bureau Has Compiled Some Startling Statistics on Annual Loss Sustained by Southern Farmers—Co-operation at Versailles For Past Year a Success.

Professor John Lee Coulter, expert special agent in the census bureau at Washington, has compiled some startling statistics in regard to the annual loss sustained by the southern farmers because of lack of co-operation.

The crops of the southern farmers are worth each year in round numbers \$2,500,000,000. Most of this sum is spent for farm supplies, food, clothing,

THE NEW MILL.

etc., and \$1,000,000,000 of this amount finds its way into the pockets of the ever present middlemen.

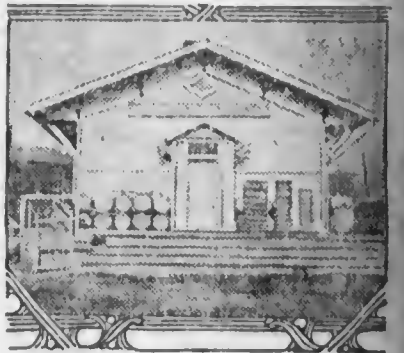

It is estimated that the southern farmers secure credit by paying \$173,000,000 in excessive interest each twelve months.

All of this tremendous waste of money is made possible through lack of co-operation on the part of the gardeners and farmers, while at the same time it makes the city man pay a much higher price for the produce than he should.

Among the men in big business enterprises co-operation has been recognized as the golden key to success in the twentieth century. Co-operation and close organization, however, are products of education, and education is the weak point in most of our rural communities. Co-operation among farmers and growers has failed largely because the mass of our rural population has been poorly educated and at the same time scattered over a wide territory. In the future our success in organization and co-operation among farmers, gardeners and fruit growers will lie in better schools, in better teachers, wide awake ministers and a closer community life.

Versailles is finishing a successful year in co-operative work with its Farmers' Union Supply company. Last summer 119 farmers and stockmen took stock in the company and its success was almost immediate. As the stockholders in this company are largely growers of Huxley tobacco and raisers of blooded stock it will be seen that the union can do very little as a selling agent. The main work of the past year has been as a buying agent; and in this particular line it has been a great success.

The first year's buying business will amount to about \$45,000. Large amounts of wire fencing, field seeds, farm machinery, paint and coal have been bought both from jobbers and wholesale men. The first year's business has been good enough for the members of the union to receive 6 per

OFFICE UNION SUPPLY COMPANY.

cent on their stock and also obtain a rebate of 5 per cent upon all purchases made through the union.

A new mill has just been completed and will soon be in operation. This will take care of the grain grown by the members of the union and enable them to buy their mill feed at quite reasonable figures.

Education in co-operation will mean better roads, better schools, better trustees, better tax laws, better men and women everywhere in the highways and byways of our rural Kentucky.

TO RALLY IN LOUISVILLE.

If never there, you ought to go. If ever there, you'll want to go.

During the Kentucky Educational Association meeting, April 30, May 1, 2 and 3, Louisville will be overflowing with teachers, trustees and friends of the schools. The people of the big cities are watching the rural school problem with great interest. Louisville was among the first to strive to help in its solution.

GET TOGETHER FOR A BIGGER AND BETTER STATE.

RESULTS THAT REMAIN

Are Appreciated By Earlington People

Thousands who suffer from back ache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one kidney medicine that has earned a reputation for lasting results and there is plenty of proof of its merit right here in Earlington.

Here is the testimony of one who once took Doan's Kidney Pills years ago, and now makes his testimony even stronger.

John Franklin, Earlington, Ky., says: "I have had no occasion to use a kidney remedy since Doan's Kidney Pills cured me some years ago. You are at liberty to use my testimonial as heretofore. I had pains in the small of my back when stooping or lifting and I became tired easily. I also had headaches and dizzy spells and had to get up at night to pass the kidney secretions. Doan's Kidney Pills proved their merit by relieving me."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Clean up your back yards and alleys and keep healthy. This is the safe way and think of the looks of it to the passer by.

A. J. Jorgerson, chairman of the Board of Examiners for the Illinois Central Rail Road will be in the city Sunday to visit his brother Dr. P. B. Davis and to accompany home Mrs. Jorgerson, who has been visiting in the city for the past week.

John W. Vogel's Big City Minstrels travel in swell private cars, and when they appear here Monday night March 31st. They will appear in rolling palaces that cost a fortune, and afford comfort and luxury. The minstrels of today do not fly-by-night to escape the tavern-keeper; neither do they tour overland by horse-power, as did the "old-timers" for many a year, as has since been revived by references in many tales of fiction and allusion in the rural dramas of the stage. And with all fame of the cross-road pioneers, they were lucky to take in as much money in a week as Vogel gathers in a day. Indeed this is an age of huge affairs.

Miss Lella Wilson and sister Mrs. Laughlin were in the city yesterday afternoon enroute to Madisonville to visit friends.

Mr. J. J. Sullivan, spent yesterday in Madisonville on business.

Mrs. Hey Lane, of Princeton, Ind., is visiting relatives in the city this week.

Messdames P. H. Davis and A. J. Jorgerson, spent this afternoon in Madisonville with friends.

Girl Painfully Hurt

Princeton, Ky., March 21.—Miss Annie Downing, a member of the city High School, was the victim of a painful accident which prevents her from going about. In company with other girls of the High School she received a push which caused her to fall to the ground over a stump, and struck her knee against sharp substance. She suffered a severe strain and contusion of the knee-joint, which necessitated the attention of a physician.

Self-Knowledge.
Suffer me to recommend to you one of the most useful lessons of life, the knowledge and study of yourself. There you see the greatest hazard of being deceived. Self-love and partiality cast a mist before the eyes, and there is no knowledge so hard to be acquired, nor of more benefit when once thoroughly understood.—Abigail Adams to Her Son.

DEATHS IN TWO STATES 3000

Estimate of Loss in Indiana and Ohio May be Swollen by Later Returns

RAILROADS ARE HARD HIT

Property Loss of \$100,000,000 Due to Floods May Fall Half to Them

Chicago, March 26.—Three thousand may have perished in the deluge which swept the northern half of the Ohio river valley yesterday and today. Probably half a million people were made homeless by the flood in Indiana and Ohio and property damaged in both States will be at least \$100,000,000.

These figures were compiled this afternoon from reports received here from various points in the stricken district. Further reports may increase the number of dead and it is unlikely that any decrease in financial loss will be made.

An additional horror was reported early this evening from Dayton. Fire there which seemed widespread and and probably uncontrollable in view of the paralyzation of the water plant, probably brought a horrible death to many who sought to escape drowning by climbing to upper floors of buildings. Following are revised figures of the dead:

OHIO
Dayton, 2,000.
Piqua, 540.
Delaware, 100.
Middletown, 100.
Sidney, 50.
Hamilton, 12.
Tippacanoe, 3.
Tiffin, 50.
Freemont, 11.
Scattering, 200.
Total—3,066.

INDIANA
Peru, 150.
New Castle, 3.
Lafayette, 2.
Indianapolis, 14.
Noblesville, 2.
Scattering, 25.
Total—196.
Grand Total—3,262.

Reports, unconfirmed, say that fourteen persons lost their lives in Freemont, Ohio and fifty at Tiffin, Ohio.

Deaths at Indianapolis

It was rumored in Indianapolis early today that 200 persons were drowned in West Indianapolis, but this number was later reduced to fourteen, although, it was estimated early this evening more than that number had died. South of Indianapolis the flood is said to have caused death in a number of small towns and villages.

Fire at Dayton, added to the financial loss caused by the flood. Early estimates placing the damage in Ohio and Indiana at \$50,000,000 were revised to show tonight double that amount.

\$25,000,000 Loss to Railways

Railroad officials were authorized by the statement that lines converging into Indianapolis would have to stand a loss of \$25,000,000 in that city and vicinity alone.

Railroads were chief sufferers from property damage. It was said tonight by engineers and construction bosses, preparing trains for the flood districts, that more than half a mile of each road had been washed away in several places through Indiana. Concrete and iron bridges, their supports undermined, crumbled before the strength of the torrents hurled against them. The loss through cessation of traffic cannot be estimated.

Only Two Roads in Shaps

Only two roads, the Michigan Central and the Lake Shore, maintained communication with New York over their own lines. Those farther south finding mile after mile of their right-of-way under a fathom of water.

The railroads are planning to re-

pair the damage done to their property as speedily as possible. Men and material are being rushed to every accessible point where damage has been reported and active repair work will be begun as soon as the floods recede.

Wire Service Practically Gone

Telegraph and telephone wires in the stricken district are down. Long distant telephone service to Ohio are cut off, with the exceptions of connections with Toledo and Cleveland. Wires through Indiana were down in many places and some of the devastated towns were cut off from all communications.

GO TO FIND 'LOST WORLD'

Adventurous Expedition Leaves to Explore Amazon

Yacht Owned by University of Pennsylvania, Sails for Brazil With Party of Scientists

Philadelphia, March 19.—Tears and cheers, sore hearts and hearts beating high with hope sent the yacht Pennsylvania on her way today when she steamed down the Delaware River for one of the most adventurous voyages of modern times.

The yacht is the property of the University of Pennsylvania, and is bound for Brazil with a daring party of explorers, who purpose penetrating to the far reaches of the Amazon and to the headwaters of many of its mighty tributaries in the interest of science and humanity. They seek what is known as the "lost world" in the basin of the Amazon.

The expedition has been organized and equipped by the University Museum. It will be gone about three years, and is expected to penetrate to regions never before visited by white men.

The yacht is in command of Capt. J. C. Rowen, U. S. N., retired, and the expedition is headed by Dr. William C. Larrabee, curator of the American section of the museum. His chief associates are Dr. Franklin B. Church, an authority on tropical medicine, and "Sandy" McNab, a traveler of wide experience and a scientist.

The Pennsylvania is of only 184 tons burden, but is said by government inspectors to answer perfectly the requirements of the expedition. She carries a crew of eleven men.

A Story Of A Woman Whose Angry Thoughts Killed Her Child

In the April Woman's Home Companion appears a valuable and suggestive article entitled "A Healthy Mind in a Healthy Body." Following is an extract:

"Among those perverted and unhealthy mental and emotional states of a positive nature are those of hatred, anger, jealousy, resentment, ill will, ill temper. Their results are generally more quickly noticeable and therefore are more pronounced. When one gives way to and is dominated even for a short period by the passion, say, of intense anger, there is set into operation a sort of mental and bodily thunder storm, which does immense damage, and whose consequences are sometimes violent and of long standing. There are numbers of readers of this very article whose own experience will add testimony to this statement. We do not yet know exactly what the processes—we do know, however, that the ill results are very definite and very costly.

"How many times has a man, 'lived with rage,' been brought down before long by an illness, or by a stroke of apoplexy, the same as many another has brought strain over worry. This is in keeping with the statement of one authority when he says: 'Every emotion of a false and disagreeable nature produces a poison in the blood and cell-tissues, and also that, agreeable, happy emotions generate chemical compounds of nutritious value which stimulate the cells to manufacture energy.'

"Shall we consider one more specific case of a concrete nature? It is but one of a number of authenticity of which is well established. The mother was strong, healthy, well developed and not especially of a nervous make-up. Her young babe was strong and perfectly well. The mother was thrown into a fit of violent anger by a certain occurrence. Soon after, her babe being hungry and calling for food, she gave him her breast. It was soon after attacked with spasms and died with convulsions within a short time. It is the consensus of opinion of the best authorities that the child's death was due to the mother's violent anger—a poison was engendered which found its way into the mother's milk, and was thus transmitted to the child. Medical books contain, and medical authorities cite, almost numberless cases of a more or less similar import."

More Tobacco—Better Tobacco—Call for More Potash

Tobacco needs more potash than any other crop. The better the quality of the tobacco, the higher the per cent. of potash in it. Both quantity and quality depend on

POTASH

The right form of potash for a tobacco fertilizer is sulfate of potash or sulfate of potash magnesia. Merate of potash is not suitable. An acre of tobacco uses 4-500 lbs. actual potash, equal to 400 lbs. sulfate of potash or 800 lbs. sulfate of potash magnesia (double merate salt). You cannot go far wrong in using 2000 lbs. per acre of 5-5-10 fertilizer with potash from actual sulfate.

Write for free pamphlet on fertilizing tobacco. We sell potash in any quantity from one 20 lb. bag up. Write for prices.

If You Need A Medicine, You Should Have The Best

Swamp-root makes friends quickly because its mild and immediate effect is soon realized. It is a gentle, healing vegetable compound.

No Hurry for That Vehicle.

Are You Constipated?

Bracelets Worn by the Insane.

Bracelets have been worn from time immemorial, but few wearers of the golden bands of the present day know that they were once used to distinguish the insane. Before lunatics were confined to asylums they wore an armband for distinction.

Indecision.

The tragedy of life is indecision. They hurry suicides at the crossroads for that is where lurks all tragedy—the indecision of which way to choose. —E. Temple Thurston.

To Clean a Gas Range.

The loose parts of a gas range frequently become so greasy and dirty that they can scarcely be cleaned. Place these parts on the coals in the furnace when the fire is low and it will quickly burn them quite clean without injury.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by All Dealers.

Blessings of Oblivion.
